CDG | CYBER DEFENSE GROUP

Cyber Defense Group Services

Security Expertise Driving Cyber Resilience

Secure your business from advanced threats and exploits

In an era of escalating cyber threats and stringent regulatory demands, protecting your business can be complex and time-consuming. This is precisely where Cyber Defense Group steps up to help, offering you cybersecurity that will simplify and strengthen your cyber posture.

Meticulously designed, our services are tailored and comprehensive to offer the perfect blend of cybersecurity solutions, ensuring that every facet of your business is shielded from potential attacks. With Cyber Defense Group, you gain access to the gold standard in holistic security programs, specifically tailored for your business, surpassing the speed and cost-effectiveness of in-house solutions. You get a dedicated in-house cybersecurity team, equipped with top-tier expertise and abundant resources. Because, your peace of mind is our utmost priority.

✅ **Holistic security solutions**
Holistic, tailored, managed cybersecurity offerings with the feel of an in-house team.

✅ **Expertise in cloud security**
Strong knowledge to navigate the modern cloud workspace, ensuring data security and a robust infrastructure.

✅ **Simplified compliance support**
Tailored policies and procedures with ongoing support to ensure continued compliance.

✅ **Ability to swiftly respond to emerging threats & intricacies**
Seasoned, deeply technical incident responders that have defended and recovered against the most sophisticated attacks.

✅ **Outcomes-based security model**
A robust security program that can be externally demonstrated at a fixed-price.

✅ **Unparalleled experience**
Experienced cybersecurity professionals that bring decades of combined experience.

✅ **Experience in agile environments**
Deep DevSecOps experience, making sure security doesn't get in the way with your SDLC.

✅ **Affordable customization & scalability**
tailored cybersecurity services that are effective and affordable, less expensive than a FTE.

Key benefits

Exceptional commitment to customer service

Cyber strategies that seamlessly align with your unique needs, ensuring your business stays protected in an evolving threatscape.

Holistic security model
Comprehensive approach to cybersecurity, no aspect unaddressed, to cover every angle.

DevSecOps comprehension
Recommendations and solutions that align seamlessly with your development framework to empower confidence in DevSecOps.

CDG | CYBER DEFENSE GROUP

WHY CYBER DEFENSE GROUP

Cyber expertise you can trust

As the new standard in evolving cybersecurity space, CDG is setting the standard for what a robust security program looks like for mid-market companies of all sectors, delivering the following key services for multiple stakeholders such as the CISO, CTO, InfoSec team, Privacy, and GRC leads).

IDENTIFY

Cybersecurity Risk Assessment

Identify and prioritize vulnerabilities and risks in your organization's systems or data security. Take steps for remediation, including recommendations for risk mitigation. Strengthen defenses and enhance overall cybersecurity posture through proactive detection and mitigation of security gaps.

PROTECT

Cybersecurity-as-a-Service

Protect your sensitive data with our managed cybersecurity services. We provide essential tools and processes to ensure security against cyberattacks. Harness the expertise and resources of our dedicated professionals from diverse industries, at a cost lower than hiring a full-time employee.

RESPOND

Incident Response Services

Respond promptly to cybersecurity incidents with rapid response and recovery, detection, assessing, and containing threats. Mitigate damages, protect data, and strengthen overall security through technical measures, compliance, communication strategies, and post-incident analysis.

OUTCOMES THAT DRIVE RESULTS

Secure your business so you can continue innovating

Cyber resilience
Reduces business downtime and fines by saving money and a time spent containing a breach.

Safeguards mission critical assets
Protects your business crown jewels from lurking threats and boots customer confidence.

Avoid legal consequences and fines
Meets legal compliance rules and stay ahead of hefty fines from legal consequences.
